

Hannover Exhibition Voucher Code

Hannover Messe 2018

This year, we will exhibit on a community booth of VDMA at Hannover Fair, focusing on complete drive systems.

This year we will exhibit a special customer-specific system that combines our types 546.25 / 450.25 / 537.31 / 314.80 in order to remove oil traces at crash sites on highways.

This solution will be the center of attention of our booth. To stress our focus on being a technological partner for entire system solutions, we will add a motor with a drive belt and a small programmable logic controller for bluetooth access.

If you would like to visit us in Hannover you can register [your ticket with our voucher code](#) here.

We would appreciate to see you at our booth for a cup of coffe or another refreshing drink.

Mönninghoff

23. – 27. April 2018 
IAMD Gemeinschaftsstand
Halle 23 • Stand B19

HANNOVER
MESSE

Driven by excellence

Why Mönninghoff
